Philippines, October 2024

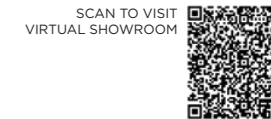

BR-V

BRAVE THE STYLE

The Honda BR-V brings style to another level with the perfect combination of dynamic design and functionality. It has eye-catching LED headlights with Daytime Running Lights that brighten the road ahead. LED foglights³ add a boost of brightness to improve visibility in low lighting conditions. The 17-inch alloy wheels³ enhance its stylish exterior from the ground up.

Premium Console & Dashboard with 7" Advanced Touchscreen Display Audio

BRAVE THE LUXURY

Welcome to comfort and versatility. The Honda BR-V features a premium and spacious cabin with versatile seating, better visibility, and cargo options that deliver beyond expectations. Ride in comfort and style with premium leather seats². Be in control of the 7" high-resolution touchscreen display with a user-friendly interface. Turn on the Apple CarPlay or Android Auto and listen to crisp, quality music with its 6 speaker² sound system with tweeters. You can adjust the height of the seats for better visibility of the road with the Manual Height Seat Adjuster.

BRAVE THE COMFORT

Designed with three rows, the Honda BR-V can fit seven adults comfortably with room for more. All your cargo carrying needs will be fulfilled with the adaptable cargo space. Make room for larger cargo with the second and third row folded down flat for maximum cargo capacity.

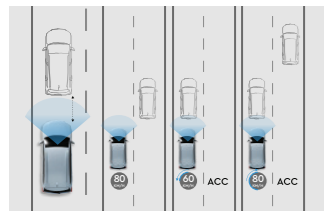

¹ Exclusive to VX ² Exclusive to VX and V ³ Except S MT

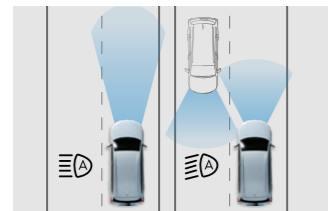

BRAVE THE UNEXPECTED

The Honda BR-V features the advanced collision-free system to date: Honda SENSING. With a state-of-the-art wide-angle camera and a high speed image processing chip, the field of vision is wider, so the system detects the situation in front much faster.

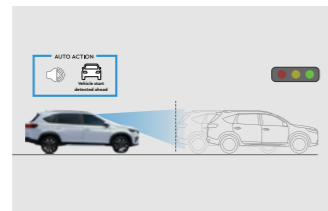

ACC

The Adaptive Cruise Control or ACC is perfect for long drives as it lessens your fatigue by maintaining the distance based on the car in front of you, braking and accelerating as needed.

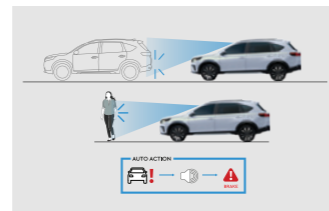

AHB

Auto High-Beam or AHB allows you to automatically turn on the high beams when there are no other vehicles ahead and lower your beam appropriately when encountering oncoming traffic.

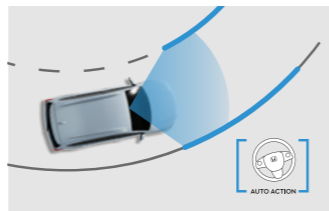

LCDN

Lead Car Departure Notification System or LCDN keeps you informed by alerting when the car in front you has moved ahead from a standstill.

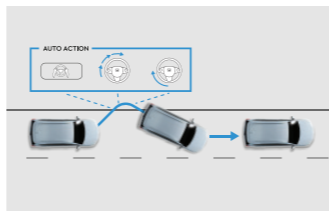

CMBS

Collision Mitigation Braking System or CMBS helps to warn, mitigate collision, or lessen the severity of the frontal collision.

LKAS

Lane Keeping Assist System or LKAS keeps the vehicle at the center of the visible road lanes and in the best driving position as it guides you to follow the flow of the road.

RDM with LDW

Road Departure Mitigation with Lane Departure Warning or RDM with LDW helps you avoid collision by providing audible and visual warning whenever the car swerves to the other lane without the proper use of signal lights, while the LDW or Lane Departure warning notifies you when going off course.

BRAVE THE SAFETY

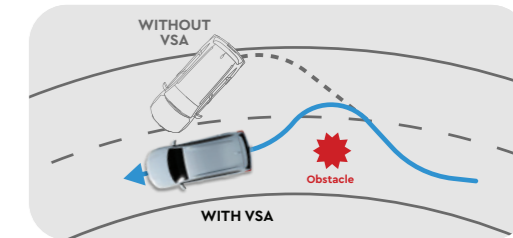

6 Airbags¹

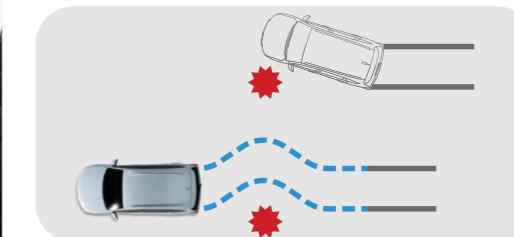

Rated 5-star by ASEAN NCAP, the Honda BR-V's dual SRS, side and side curtain airbags add peace of mind to your journeys. Signal right and a small camera displays live video on the 7-inch display, revealing a wider view of the road with the Honda LaneWatch¹ feature. While the rear bumper has integrated parking sensors that detect objects close to the rear of the vehicle.

BRAVE THE INNOVATION

Wherever your destination is, the Honda BR-V comes with innovations that provide comfort for everyone aboard. Lock and unlock the doors without ever taking your key fob out of your pocket or bag with Smart Entry² and Walk-away Auto Door Lock¹. Reverse and park with confidence with the ability to clearly see what's behind you with the Rear View Camera. The Honda BR-V adds extra peace of mind with the rear seat reminder¹ to ensure that no one or nothing is left behind.
