Philippines, February 2025

THE NEW
BR-V

DISCOVER STYLE

The all-new Honda BR-V brings style to another level with the perfect combination of dynamic design and functionality. It has an eye-catching LED headlights with Daytime Running Lights that brightens the road ahead. LED foglights adds a boost of brightness to improve visibility in low lighting conditions. The 17-inch alloy wheels enhance its stylish exterior from the ground up.

DISCOVER LUXURY

Welcome to comfort and versatility. The all-new Honda BR-V features a premium and spacious cabin with versatile seating, better visibility, and cargo options that deliver beyond expectations. Ride in comfort and style with premium leather seats. Be in control of the 7" high-resolution touchscreen display with a user-friendly interface. Turn on the Apple CarPlay or Android Auto and listen to crisp, quality music with its 6 speaker sound system with tweeters. You can adjust the height of the seats with the dials beside the seat for better visibility of the road with the Manual Height Seat Adjustment.

DISCOVER COMFORT

Designed with 3 rows, the all-new Honda BR-V can fit 7 adults comfortably with room for more. All your cargo carrying needs will be fulfilled with the adaptable cargo space. Make room for larger cargo with the second and third row folded down flat for maximum cargo capacity.

SAFETY

6 Airbags¹

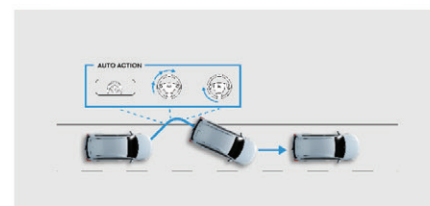

DISCOVER THE UNEXPECTED

The All-New HR-V features the advanced collision-free system to date: the Honda Sensing. With a state-of-the-art wide-angle camera and a high speed image processing chip, the field of vision is wider, so the system detects the situation in front much faster.

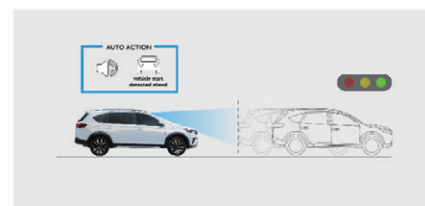

CMBS

Collision Mitigation Braking System or CMBS helps to warn, mitigate collision, or lessen the severity of the frontal collision.

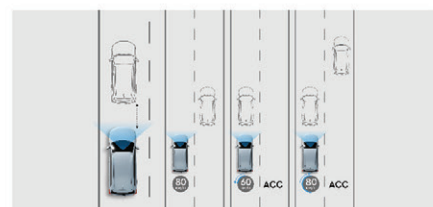

RDM

Road Departure Mitigation or RDM helps you avoid collision by providing audible and visual warning whenever the car swerves to the other lane without the proper use of signal lights, while the LDW or Lane Departure warning notifies you when going off course.

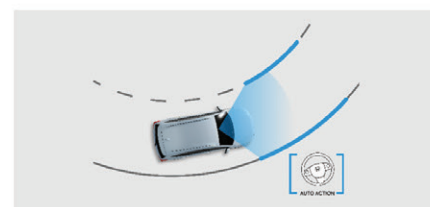

LCDN

Lead Car Departure Notification System or LCDN keeps you informed by alerting when the car in front you has moved ahead from a standstill. Other lane without the proper use of signal lights, while the LDW or Lane Departure warning notifies you when going off course.

ACC

The Adaptive Cruise Control (ACC) is perfect for long drives as it lessens your fatigue by maintaining the distance based on the car in front of you, braking and accelerating as needed.

LKAS

Lane Keep Assist System or LKAS keeps the vehicle at the center of the visible road lanes and in the best driving position as it guides you to follow the flow of the road.

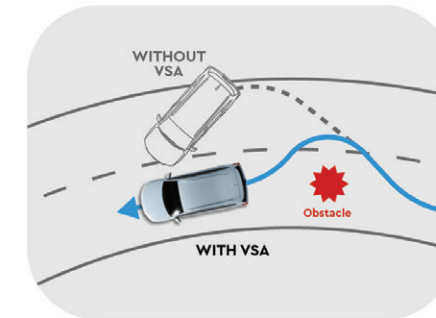

LCDN

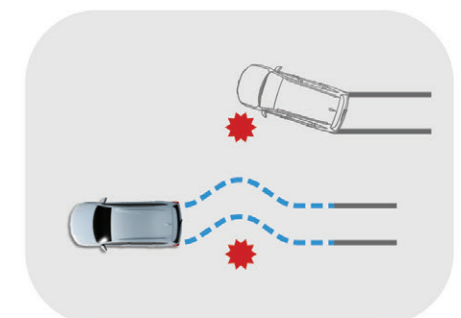

Auto High-Beam or AHB allows you to automatically turn on the high beams when there are no other vehicles ahead and lower your beam appropriately when encountering oncoming traffic.

Hill Start Assist (HSA)

Vehicle Stability Assist (VSA)

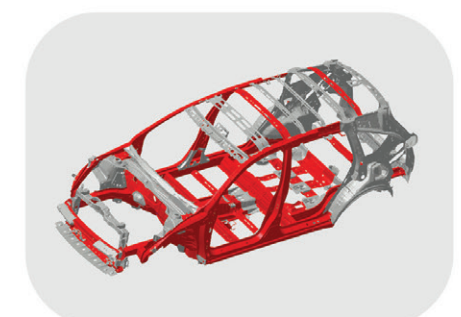

Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD)

Reverse Camera with Guidelines

Honda LaneWatch¹

GCON Body Structure

Rated 5-star by ASEAN NCAP, BRV's driver, front and passenger airbags add peace of mind to your journeys. Signal left and a small camera displays live video on the 7-inch display, revealing a wider view of the road with the LaneWatch feature. While, the rear bumper has integrated parking sensors that detects objects close to the rear of the vehicle.

DISCOVER INNOVATION

Wherever your destination is, the all-new Honda BR-V comes with innovations that provide comfort for everyone aboard. Lock and unlock the doors without ever taking your key fob out of your pocket or bag with Smart Entry and Walk-away Auto Lock. Reverse and park with confidence with the ability to clearly see what's behind you with the Multiview Rear Camera. The all-new Honda BR-V adds extra peace of mind with the rear seat reminder to check for rear seat passengers before going out of the car.
